Igor Rohal

SOFTWARE ENGINEER

Profile

- Experienced in designing, developing, and delivering backend software
- Built e-commerce projects using the microservices architectural pattern, deployed and available on-demand in the cloud (Software as a Service)
- Passionate about distributed software architecture, reactive event-driven software, CI/CD pipelines, and cloud deployments
- Effectively utilized agile development practices (Scrum, Kanban) in self-organizing, independent, cross-functional teams

Certifications

Certified Kubernetes Application Developer (CKAD), Linux Foundation

OCTOBER 2021

Employment History

Software Engineer, Camunda Services, Remote

FEBRUARY 2021 — MAY 2021

- Worked on the backend part of Cawemo - a SaaS solution for the collaborative modeling of business processes using the BPMN 2.0 standard notation
- I integrated the backend with the RESTful APIs of an external service to enable a funnel to bring insight into the behavior of more than 100K users of Cawemo
- Main technologies: Java 11, Spring Boot 2, Spring 5, PostgreSQL, Kubernetes

Senior Software Engineer, SAP CX, Munich, Germany

JANUARY 2016 — MARCH 2020

- Developed the headless-ready REST APIs of SAP Upscale Commerce - a SaaS solution for mid-market businesses to start selling faster
- Designed, developed, and ran cloud-native resilient microservices to achieve rich product-import as well as order-management features in SAP Upscale
- Led technical interviews to hire new software engineers for the team
- Main technologies: Java 8-11, Spring Boot 1, Spring 4, Redis, MongoDB, PostgreSQL, Kubernetes

Software Engineer, SAP CX, Munich, Germany

NOVEMBER 2013 — DECEMBER 2015

- Designed, developed, and ran cloud-native microservices written in Java 8 and Spring to bring the e-commerce features (Cart, Checkout, Shipping, Order) to YaaS.io - a Commerce as a Service solution for small to mid-size businesses

Education

Czech Technical University, Prague, Czech Republic

2006 — 2012

Master's degree in Computer Software Engineering

KTH Royal Institute of Technology, Stockholm, Sweden

2010

Erasmus Exchange Programme in Software Engineering
